Erratum

Library of SM and anomalous $WW\gamma$ couplings for the $e^+e^- \to f\bar{f}n\gamma$ Monte Carlo programs

A. Jacholkowska, J. Kalinowski, Z. Wąs

Comput. Phys. Commun. 124 (2000) 238

The implementation of the anomalous coupling λ_γ in GengLib differs by the sign of λ_γ with respect to Eq.(2) of Ref. [7]. As a consequence, the code of our library, distributed together with the publication Comput. Phys. Commun.**124** (2000) 233, uses different convention (opposite sign of λ_γ) than the one generally used, in particular in Ref. [8].

We thank Alexander Oh for calling our attention to this difference.
